EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, line 5, after "data" insert – to --.

Cancel claims 12-18.

2. This application is in condition for allowance except for the presence of claims 12-18 to an invention non-elected without traverse. Accordingly, claims 12-18 been cancelled.

3. The following is an examiner's statement of reasons for allowance:

The two articles to Watanabe et al and Yamamoto et al are the closest prior art to which the instant claims pertain. The two articles each discloses a method of processing sonic wire-line or logging while drilling data for reflector imaging around a borehole. In the two systems, (Watanabe et al, see Fig. 4, Yamamoto et al, see page 4) it is disclosed that the sonic data is first filtered to attenuate borehole-borne arrivals and then migrated to correct for a difference between the apparent and true position of the reflector.

Art Unit: 3662

What is not shown nor obvious over a combination of any prior art and the two systems of Yamamoto et al and Watanabe et al is the additional step of beamforming the filtered and migrated data (claim 1) or triangulating the processed sonic data (claim 10) for determining the position of a reflector.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ian J. Lobo whose telephone number is (571) 272-6974. The examiner can normally be reached on Monday - Friday, 6:30 - 3:00.
